TEAM BUILDING WORKSHOP

"Naber's program ingrained in my mind the most important lessons of public speaking success. Of particular benefit were the "skill drills" that allowed me to practice and demonstrate my growing proficiency in front of a video camera and a live audience."

Award Winning Presentation Skills[®]

With powerful and effective communication skills, anyone can create a positive and lasting first impression, win over a large audience, overcome customer resistance and convey intricate ideas in a memorable way. In each case, the bottom-line benefits to the speaker and the speaker's business are immediate and profitable.

Award Winning Presentation Skills[®] is a concentrated one-day workshop that teaches business people how to capture their audience's attention, deliver an effective presentation, and feel confident and in control from the first "ladies and gentlemen" to the final standing ovation.

This 8-hour curriculum was developed by John Naber, Olympic champion, network television announcer and motivational speaker, who has addressed more than 1,000 audiences including many Fortune 100 companies. If your company is looking to develop quality relationships, reach quality prospects, land the big contracts and move ahead of the competition, this program will give you a decisive edge.

THE PROGRAM

Award Winning Presentation Skills[®] is a program that can turn even the shy presenter into a confident communicator. As with the training of Olympic athletes, your trainer helps each participant master each skill before advancing to the next. As the practical skills become second nature, fears disappear and confidence takes center stage.

Each seminar is limited to 12 participants. The small group size allows for focused and personalized attention. Participants enjoy the chance to practice in front of a video camera as well as a live audience and will retain a tape of their sessions plus a take-home kit filled with information about valuable
